# **TOSHIBA**

## Super resin - AS2 (F)

#### For flat-head and near-edge printers

The AS2(F) is a superior ('super') resin ribbon ideal for applications needing exceptional heat, mechanical and chemical resistance. Printing on to a wide range of synthetic material, high gloss and matt coated papers, the printed image will withstand temperatures up to 250°C (482°F). As with all Toshiba ribbons, the superior back coating prevents static build-up and clogging, offering the very best in printhead protection.

Toshiba AS2(F) ribbons - the definitive choice for extreme conditions.

| Characteristics                              |   |
|--|---|
| Superior resistance to smudge and scratching | Excellent resistance to solvent and to high temperature |

#### **Specifications** (Performances expressed in this sheet are for the black ribbon) Ink Туре Resin 85°C (185°F) Melting point Carrier Film thickness <9 µm PET thickness 4.5 µm Tensile strenght >220 N/mm<sup>2</sup> (MD) **Back Coating** Silicone product based Friction coefficient Kd < 0.2 Colours

Ribbon is anti static build up treated. Storage: 12 months, 5-35°C (40-95°F), 20-80% Humidity

| Certifications and Approvals (For other standards, please contact us) |   |                          |  |  |  |  |  |
|---|---|--------------------------|--|--|--|--|--|
| Food contact  | 1935/2004/EC  | <b>A</b>                 | UL/CSA Legibility and durability of the printed label. |  |  |  |  |
| Heavy metals  | EC 98/638.  |                          |  |  |  |  |  |
| TSCA  | The ribbon does not contain any of the toxic substances mentioned in this list.   |                          |  |  |  |  |  |
| California<br>Proposition 65  | The ribbon does not contain any of the chemical mentioned in this list. (except for carbon black which as far as we know is present in every black TT ribbons). |                          |  |  |  |  |  |
| EC Directives   | 1999/45/EC. The ribbon does not contain any   | / substance classified a | s dangerous for health.                                |  |  |  |  |

#### **Always Choose Toshiba Ribbons for Toshiba Printers**

The wide range of Toshiba ribbons available today ensures that our valued customers have different product options for virtually every thermal transfer application. Using Toshiba ribbons ensures optimum print quality causing minimum wear on working parts - in particular to the printhead.

Before a ribbon is certified by Toshiba it must first undergo stringent tests to ensure its continuity and reliability in the field. It is assessed on a variety of receiving materials, and at every speed and temperature combination. Only once this procedure is complete and deemed successful will the ribbon receive its certificate of approval.
