

For flat-head printers

AW5 is a new generation quality product designed to meet today's varied and demanding printing standards. This improved resin enhanced wax quality offers superior mechanical and smudge resistance. It has been specifically developed for the new generation of Toshiba flat-head printers. Providing very good, clear printed images of text and barcodes onto a wide range of labels stocks, from uncoated to high gloss papers and synthetics, it offers a blackness above 2.0 ODR and heat resistance up to 100°C.

As with all Toshiba ribbon products, AW5 offers the best in printhead protection with its superior back coating.

Toshiba AW5 ribbons – new generation wax ribbon for demanding applications.

Always Choose Toshiba Ribbons for Toshiba Printers

The wide range of Toshiba ribbons available today ensures that our valued customers have different product options for virtually every thermal transfer application. Using Toshiba ribbons ensures optimum print quality causing minimum wear on working parts - in particular to the printhead.

Before a ribbon is certified by Toshiba it must first undergo stringent tests to ensure its continuity and reliability in the field. It is assessed on a variety of receiving materials, and at every speed and temperature combination. Only once this procedure is complete and deemed successful will the ribbon receive its certificate of approval.
