

## Insist on Toshiba approved ribbons

The perfect choice for your business

### Availability

- Wide range of ribbon stock items are available for super fast delivery.
- Samples available for a wide range of applications for testing.

### Super long print head life

- The use of original Toshiba ribbons protects your print head. Depending on the printer model, we ensure an expected minimum print head life of up to 100 km, which means printing more than 1 million 10 cm long labels.

### Extend the life of your printer

- Toshiba ribbons are tested and approved to not only provide the best quality, but also minimise the wear of the printer.
- Maximise your return on the investment, by using only Toshiba ribbons.

### Higher performance

- Our high-end industrial printers have a 600 m ribbon as standard which is 33% longer than other printers on the market.
- Additionally, Toshiba can provide extra-long ribbons of 800 m to further extend your printer's productivity.

### Ensure consistent print quality

- Our strict testing regime ensures the quality and performance of the whole ribbon as well as consistent quality from ribbon to ribbon.

### Wide range of applications

- Toshiba ribbons are available in a wide range of grades to match the requirements of almost any application.

### Toshiba Technical Support

- Tell us what you need and our local experts will advise on the best match for your labelling requirements.

### One-stop supplier

- Toshiba offers a total solution including a wide range of label and RFID printers, design and printing software and approved consumables (ribbons, labels, RFID tags and linerless rolls).

### Toshiba brand brings you peace of mind.
