

TOSHIBA

BarTender UltraLite

The easy way to design & print.

BarTender UltraLite for Toshiba Tec printers

BarTender is a powerful labelling solution which allows you to easily and efficiently design labels and other documents. Later if you need to connect your label designs to live database data, integrate automated printing with existing business systems, and launch print requests remotely, you can choose to upgrade to a full version of BarTender.

Download the latest version

Download BarTender UltraLite by scanning the QR code on the right or from the following link:

https://www.toshibatec.com/download_overseas/printer/bartender/

Activate your BarTender UltraLite version

To fully use the UltraLite version of BarTender you are required to enter an activation code. Enter the Toshiba Tec specific code to activate the UltraLite version of BarTender.

Toshiba Tec activation code for Bartender UltraLite:

Z3MF-WXYQ-0JWC-S9PD

With this code up to 5 Toshiba Tec label printers can be used with Bartender UltraLite. If you require an upgrade of BarTender including additional features please contact your Toshiba sales representative.
